

Member Update

ING's new easy-to-use Super Simulator integrates a retirement calculator with interactive online education.

May 2009

ING's new online calculator, the Super Simulator, is an enhancement to the current suite of online education available to you on the Member Super Centre - www.ing.com.au/member. It integrates an easy-to-use super and retirement calculator, with online video education to provide you with the knowledge and tools you need to take control of your super.

You're in the driver's seat

Simulate your personal situation using a number of variables, including contribution, investment and superannuation benefit options, to illustrate the impact on:

- how much super you might have at retirement;
- how long your super might last in retirement; and
- how you can grow your super today.

While the simulator does not provide personal financial advice, it enables you to explore the benefits of a long term superannuation and retirement plan. Remember to discuss any investment decisions with your financial adviser.

Take a test drive today at www.ing.com.au/supersimulator and take control of your super.

Key features

- An easy-to-use online interface that requires minimal data entry
- Receive an emailed report summarising the scenario you have developed which you can keep or email to your adviser.
- Access integrated and relevant video education content as well as links to other online education available on the Member Super Centre
- Clear encouragement to take action to avoid any retirement savings gap

Improving member education

Market leading in terms of its simplicity, the Super Simulator has been added to the range of online services already on offer to ING's Corporate Super and Integra Super members including online tutorials, webcasts, fact sheets and InvestorBenefits. Visit the Member Super Centre at www.ing.com.au/member to learn more.
