1. About Living Super

Living Super offers a wide range of investment and insurance options. Whether you are looking to invest your super in Term Deposits, *managed investments* or real time trading of selected *listed securities*, Living Super has been structured to give you great flexibility and convenience.

More information on the available investment options is set out in section 5 of this PDS and the [Product Guide](#). More information on the available insurance choices is set out in section 8 of this PDS and section 9 of the [Product Guide](#).

There are three types of accounts offered in Living Super:

- *Super account*¹ (no minimum initial investment);
- *Transition to retirement* or *TTR account* (a minimum initial investment of \$20,000 is required); and
- *Pension account* (a minimum initial investment of \$20,000 is required).

Living Super is independent from your employer so if you change jobs, you can remain in Living Super and continue enjoying its benefits. If you start a new employment arrangement after 1 November 2021, your employer may automatically make contributions to your account, if the ATO consider it to be a stapled fund.

2. How super works

Superannuation is a long-term investment, designed to help you in your retirement. Understanding how your super fund works enables you to maximise and protect your retirement savings.

Some super contributions made by your employer such as contributions made under an award or *superannuation guarantee (SG)* contributions are compulsory. You can usually ask your employer to pay the SG contributions to a super fund of your choice.

Boosting your super

In addition to SG contributions, if you have a super account you may be able to increase your retirement savings by making the following contributions:

- Voluntary personal contributions;
- Salary sacrifice contributions;
- Spouse contributions;
- Contributions if you are self-employed; and
- Other special contributions

Tax concessions are provided by the Australian Government under certain circumstances; however you need to carefully monitor the dollar amount of super contributions made to your account as the government has set dollar limits on the total value of the super contribution that can be made each financial year before additional tax is imposed. There is more detail about the contribution caps under section 7, 'How super is taxed', of this PDS.

Consolidation of other super accounts

When considering rolling over funds into Living Super, you should think about where future employer contributions will be paid, any other fees you may incur with the rollover and the potential loss of any existing insurance cover(s) with other provider(s).

You should read the important information about consolidating your super accounts before making a decision. Go to the [Product Guide](#) and read section 3, 'How super works' and section 4 'How your Living Super account works'. The material relating to contributions may change between the time you read this PDS and the day you acquire this product.

Accessing your super benefits

There are restrictions on when you can access your super. Generally, you cannot withdraw your super until you reach your preservation age and retire, turn 65 (regardless of whether you retire) or meet another condition of release. You can use a TTR account to access some of your super after you reach your preservation age if you are still working. From 1 July 2024, your preservation age is 60.

You should read the important information about accessing your super benefits before making a decision. Go to the [Product Guide](#) and read section 3 'How Super works'. The material relating to accessing your super benefits may change between the time you read this PDS and the day you acquire this product.

4. Risks of super

Investment risks

Living Super offers a range of investment options, each of which carries a different level of risk, so you will need to consider your age, investment time-frame, the length of time until retirement, diversification of investments, and personal aversion to risk. The different levels of risk for each investment option and your personal needs and circumstances means that the potential for the value of your investment to increase or decrease will differ.

When considering how to invest in super, it is important you understand that:

- all investments carry risk;
- different strategies may carry different levels of risk, depending on the assets that make up your investment strategy;
- investment returns are not guaranteed and you may lose some of your money;
- the level of returns will vary and future returns may differ from past returns;
- the value of your super can fluctuate depending on the investment options and its associated risks;
- investment options and other investments may be closed or terminated at any time;
- past performance is not an indicator of future performance;
- laws affecting your super may change and may affect the return and the level of risk of your investment;
- the amount of your future super savings (including contributions and returns) may not be enough to provide adequately for your retirement; and
- assets with the highest long-term returns may also carry the highest level of short term risk.

You should ensure that you consider your investment options and preferences carefully and consider seeking professional financial advice, where necessary.

You should read the important information about investment risks of super before making a decision. Go to section 8, 'Risks in super', in the [Product Guide](#).

The material relating to risk may change between the time you read this PDS and the day you acquire this product.

¹ You may only hold one super account within Living Super. The Trustee may merge any duplicate accounts.

² Living Super fee rates are available at ing.com.au. Buy-sell spreads and other incidental transaction costs apply to all managed investment options. Buy-sell spreads and other incidental transaction costs are retained within the managed investment and are not fees paid to ING or the Trustee. The Trustee may replace one or more of the underlying investment managers which may affect the fee structure of the investment options. In addition, other factors may arise which may cause the fee structure for Living Super to change. Should this occur, the Trustee may vary the fees for Living Super without your consent by giving at least 30 days' prior notice where there is an increase.

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on *your* long-term returns. For example, total annual fees and costs of 2% of *your account* balance rather than 1% could reduce *your* final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000). *You* should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. *You* or *your employer*, as applicable, may be able to negotiate to pay lower fees. Ask the fund or *your* financial adviser.

To find out more

If *you* would like to find out more, or see the impact of fees based on *your* own circumstances, the Australian Securities and Investments Commission (ASIC) Moneysmart website (www.moneysmart.gov.au) has a superannuation calculator to help *you* check out different fee options.

Additional explanation of fees and costs

Member Advice fee

Important Information: If you choose to consult a financial adviser about your super, you can agree to pay them from your Living Super account.

The fee will be outlined in the Statement of Advice provided by your financial adviser. The Member Advice fee requested is inclusive of GST. A tax rebate of 15% may reduce the net amount payable by you. Please note, from 1 July 2024, the ATO has changed the qualification requirements to RITC entitlements. Living Super will no longer be able to claim RITC on your behalf in relation to Member Advice fees.

Administration fees and costs: The administration fee and costs are made up of the following components:

- A flat fee of \$60 p.a. deducted from the Cash Hub monthly (\$5 per month) regardless of your balance. This is applicable to all accounts;
- The 0.35% p.a. fee for the single and multi-sector managed investment options (except the Cash option);
- The 0.20% p.a. fee for the Cash option; and
- The 0.42% p.a. fee for the listed securities

Total percentage-based administration fees are capped at \$2,125 p.a.

Administration fee – ORFR: Super funds are required by the Australian Prudential Regulation Authority (APRA) to hold capital reserves to cover losses that arise from operational risk events. The aim of establishing an Operational Risk Financial Requirement (ORFR) reserve is to ensure that trustees have enough money to compensate members for any operational incident that may have a negative impact on their benefits.

As the fund has sufficient money in the reserve, the fee is currently nil.

Investment fees and costs: Investment options in the single and multi-sector managed investment options (except the Cash option) are subject to investment fees and costs. The disclosed investment fees and costs are incurred by the underlying investments and are based on the expenses incurred over the previous financial year. As a result, these figures are indicative only and may change in subsequent years. There are no investment fees for Term Deposits, Cash Hub, Cash option or listed securities except for the Exchange Traded Funds (ETFs). Please see section 6 'Fees and other costs' of the [Product Guide](#) for more details.

Buy-sell spread: Transaction costs (e.g. fund-level brokerage and other incidental transaction costs) are incurred when buying and selling units in managed investments and when auto-rebalancing occurs. The buy-sell spread is retained within the managed investments (that is, it remains an asset of the relevant fund or other investment) and is not a fee paid to the Trustee. For more detail on this please see section 6 of the [Product Guide](#).

Transaction costs: Transaction costs are costs associated with the sale and purchase of assets of the superannuation entity other than costs that are recovered by the superannuation entity charging buy-sell spreads. These costs include costs relating to costs incurred relating to the underlying investment managers' buying and selling of investments and may include costs such as brokerage, buy-sell spreads of the underlying investments (where applicable), settlement costs (including settlement related custody costs), stamp duty on investment transaction costs and clearing costs. Transaction costs are reflected in the stated fees and costs within this PDS and [Product Guide](#).

For more detail on these fees, please see section 6 of the [Product Guide](#).

Brokerage costs for listed securities: Brokerage costs are incorporated in the purchase price or sale proceeds which is deposited or deducted from the Cash Hub when a listed securities trade is requested. For more detail on this, please see section 6 of the [Product Guide](#).

Insurance premiums: If you have insurance cover, the costs of your insurance premiums are deducted from your Cash Hub on the last day of every month or the next business day (if the last day of the month is not a business day) and paid to the insurer. For more information, see section 8 'Risks in super' of this PDS and section 9 'Insurance through Living Super' of the [Product Guide](#).

Taxes: Applicable taxation information (including information as to whether any tax deduction is passed on to you in the form of a reduced fee or cost) is set out in section 7 'How super is taxed' of this PDS and the [Product Guide](#).

Service fee for premium market research: If you have subscribed to premium market research, you may be charged an additional service fee. This will be deducted from the Cash Hub on the first business day of the month.

Changing fees

We can vary our fees without your consent, but we'll give you at least 30 days' notice of any increases in fees or charges. This doesn't include changes to investment costs and buy-sell spreads, nor Government taxes and charges.

Indirect investment costs and buy-sell spreads may vary and we recommend that you regularly check the current fees under the 'Rates and Fees' section of the Living Super website ing.com.au for the most up to date information before making any decisions.

Prior notice is not required where an increase reflects an increase in costs.

You should read the important information about fees and other costs before making a decision. Go to the [Product Guide](#) and read section 6, 'Fees and other costs'.

Definitions of the fees are also available in the [Defined Fees Guide](#). The material relating to fees and other costs may change between the time when you read this PDS and the day you acquire this product.

7. How super is taxed

The super account

Investing in super generally offers taxation advantages.

Tax on contributions

When you make your contribution – Contributions tax: All employer contributions made from your pre-tax (gross) salary (including amounts that have been salary sacrificed) and any personal contributions for which a tax deduction is claimed are subject to a 15% contributions tax. These contributions and certain other amounts are known as concessional contributions.

Personal contributions that are not claimed as a tax deduction and spouse contributions are not taxed. These contributions and certain other amounts are known as non-concessional contributions.

Contributions tax (if applicable) is deducted each time a contribution is made to your super account.

Low income taxpayers may be entitled to a contribution from the Government of up to \$500. Effective 1 July 2017, anyone with a combined adjustable taxable income (including concessional contributions) of more than \$250,000 may be subject to an additional 15% contributions tax on the excess concessional contributions (conditions apply).

The amount of your contribution – Contribution caps: The Government has set dollar limits (caps) on the amount that can be contributed to your super each year before additional tax becomes payable. These limits are called contribution caps.

The amount of the contribution cap depends on whether the contributions are concessional (from 1 July 2024, usually \$30,000 per financial year subject to the unused concessional contribution cap carried forward in certain circumstances) or non-concessional (from 1 July 2024, usually \$120,000 per financial year with a cap of \$360,000 available within a 3-year period in certain circumstances). If you exceed the concessional contribution cap for a financial year, the excess will generally be assessed against your non-concessional contribution cap (an exception may arise where you elect to release the excess concessional contributions from your super account).

Important information: You need to monitor contributions made to all your super funds. If you exceed the relevant contribution cap for a financial year, you may be assessed by the ATO as having to pay excess contributions tax. Excess concessional contributions will be included in your assessable income for the corresponding financial year and taxed at your marginal tax rates, plus the Medicare levy less a non-refundable tax offset of 15%. If you exceed the non-concessional contributions cap, you may be subject to excess non-concessional contributions tax. You have a choice of how your excess non-concessional contributions will be taxed. You can choose to release the amount from your superannuation account or pay the excess non-concessional contributions tax. You elect your choice by completing the ATO excess non-concessional contributions (ENCC) election notice and returning it to the ATO. Once you have made your election, it cannot be changed.

Information on tax deductions

The fees and costs are inclusive of any applicable stamp duty and GST (less any reduced input tax credits). The *fund* may be eligible to claim a tax deduction for certain expenses incurred and for insurance premiums paid for insurance cover for eligible members. Where we are eligible to claim a tax deduction for *insurance premiums* and for expenses related to the fees charged to *you*, the benefits of these tax deductions are retained by the *fund*, with the exception of a tax benefit related to a flat fee of \$60 which is passed on to you.

Investment earnings: Investment earnings are taxed at a maximum of 15% in *your super* and *TTR account*. Amounts credited to *your account* or quoted in unit prices are net of tax and certain *investment fees*, and may be offset by tax credits such as franking credits.³

If *you* are invested in listed securities, an annual tax adjustment is applied to *your* Cash Hub account after the year end. The value of the tax adjustment may include franking credits and other tax offsets.

When you take your money out: How much tax is charged on the withdrawal of *your* super benefits will depend on the following:

- *your* age,
- the amount of the withdrawal,
- the type of benefit, and
- whether *your* benefit contains a taxable component.

For example: if *you* receive a lump sum benefit payment from *your* account on or after age 60, generally no tax will apply. However, the tax treatment of benefit payments paid in other circumstances (e.g. if *you* are under age 60, if *you* die, if *you* become disabled, etc.) may be different.

When you transfer your money to another super fund: Generally, if *your* benefit is rolled over to another complying super fund, no tax will be payable.

The Transition to Retirement (TTR) and pension accounts

When *you* have a *TTR account* or a *pension account*, there may be some tax benefits including:

- No lump sum tax on transfers (both *TTR account* and *pension accounts*) – when *you* transfer *your* super benefit into *your pension* or *TTR account*, generally no tax is payable on *your* benefit.
- No tax on investment earnings (*pension accounts* only) – investment returns from assets in *your pension account* are tax-free and *you* may receive the benefit of franking credits.³

Things you should know: Tax may be payable on transfers from some super funds (for example, a 15% *contributions* tax may be payable on any untaxed elements within *your* benefit rolled over from another complying super fund).

If you are under age 60:

- Part of each pension payment may be paid to *you* tax-free as determined by the proportion of the tax-free component of *your super account*.
- PAYG may be withheld on the taxable portion of the payment. *You* may also be eligible for a 15% tax offset on the taxable portion of *income* payments. This offset generally applies if *you're disabled*, or we are paying an income stream as a result of a death. Where the offset applies, we will automatically include it in any amount we withhold.

If you are over age 60:

- Generally no tax will apply on *your pension* or lump sum payments.

As of 1 July 2024, there is a \$1.9 million transfer balance cap on the total amount of accumulated superannuation an individual can hold in a tax-free retirement stream. The transfer balance cap is indexed periodically in line with CPI in \$100,000 increments. The indexing will not apply to anyone who has reached or exceeded their current transfer balance cap.

Changing your Automatic Cover

If you apply to increase or decrease your Automatic Cover, your application will be subject to underwriting. If your application is accepted, your Automatic Cover will be replaced by Tailored Cover. If your application is declined, you will remain on Automatic Cover with your existing terms and conditions.

You can cancel part of your Automatic Death or TPD cover. The remaining cover (i.e. the cover you haven't cancelled) will continue as Automatic Cover and your existing terms and conditions will continue to apply. If you later wish to increase your Automatic Cover, your application will be subject to underwriting.

Tailored Cover

You can change your level of Death or TPD cover to meet your individual needs by applying for Tailored Cover. You can choose to apply for Death and TPD cover as stand-alone benefits or linked benefits.

Options for Tailored Cover include Fixed Premiums, Level of Cover or Life Stage cover.

With Tailored Cover, you can apply for a maximum of \$5 million TPD cover. No maximum amount is applicable for Death cover. More information about Tailored Cover and how to apply for it is provided in section 9 of the [Product Guide](#).

Changing your Tailored Cover

If you apply to increase your Tailored Cover, your application will be subject to underwriting.

Medical/health exclusions or loadings may apply to the additional Tailored Cover sum insured amount as a result of underwriting. The insurer may limit the number of multiple loadings and exclusions for subsequent applications for increasing your Tailored Cover sum insured amount.

If your application is declined, you will remain on your original cover with your existing terms and conditions.

If you wish to cancel part of your Tailored Death or TPD cover, the remaining cover (i.e. the cover you haven't cancelled) will continue as Tailored Cover and your existing terms and conditions will continue to apply.

Income Protection Cover

Income Protection Cover is an income replacement benefit that can provide you with a monthly benefit if you become disabled or partially disabled and are unable to work as a result of injury or illness.

Income Protection Cover is available in addition to either Automatic Cover, Tailored Cover, or on its own.

Subject to underwriting, you can apply for a maximum amount of cover of 85% of your income (up to a maximum of \$30,000 per month), which includes a 10% Superannuation Contributions

Benefit if you have selected this option. More information about Income Protection Cover and how to apply for it is provided in section 9 of the [Product Guide](#).

Where you apply to increase your Income Protection sum insured amount, medical/health exclusions or loadings may apply to the additional cover as a result of underwriting. The insurer may limit the number of multiple exclusions and loadings for subsequent applications for increasing your Income Protection sum insured amount. If you change the benefit period and/or waiting period for Income Protection, exclusions and/or loadings may also apply to the total Income Protection Cover as a result of underwriting.

Cost of insurance

There are costs associated with insurance cover. The insurance premium you pay depends on the amount of cover, type of cover and other factors such as your sex, age, occupation, and health declaration. Your insurance premiums will be deducted from your Cash Hub on the last day of every month or the next business day. The premium is calculated based on the information in your application form, and any additional information required by the insurer.

The premiums for Automatic Cover for Death and TPD cover range from \$8.64 per month to \$79.96 per month for females and \$15.06 per month to \$105.74 per month for males. For more information on the premiums that may apply to you, please use the Insurance Premium calculator by visiting ing.com.au/SuperInsurancePremium or contact us. In order to calculate your estimated premiums, you will need to know your Automatic Cover amount which is based on your age in the table in the [Product Guide](#) or the amount you prefer for Tailored Cover.

Bring your insurance to Living Super

You may wish to apply to transfer your fully underwritten insurance cover across from another super fund as part of Living Super's Tailored Cover or Income Protection Cover. Simply log into your Living Super account at ing.com.au and complete the online Transfer of cover application form. Your insurance cover must have been previously underwritten to be eligible. You can transfer up to a maximum of \$2 million in Death and/or TPD and up to \$20,000 per month in Income Protection Cover. These maximums are inclusive of any existing cover you have with Living Super.

Transfer of cover is subject to eligibility requirements. For example, the previous cover must have been fully underwritten and there are restrictions on the acceptance of certain occupation classes.

The transfer of cover will be based on the assumption that the information you provided to your previous insurer was accurate and complete and that you complied with the duty to take reasonable care not to make a misrepresentation under the Insurance Contracts Act 1984 (Cth). It is important to note that the duty to take reasonable care not to make a misrepresentation has replaced the duty of disclosure. The duty of disclosure may have applied depending on the date you made your application for cover, vary your cover, or reinstate your cover, with the previous insurer. If so, a breach of the duty of the duty of disclosure will be treated the same as a breach of the duty to take reasonable care not to make a misrepresentation.
